

GREEN KEY CERTIFICATION

What is Green Key?

You have chosen a Green Key certified establishment – thank you for your conscious choice!

Green Key is an international eco-label for tourism facilities and is managed by the Foundation for Environmental Education (FEE). With over 5,000 certified establishments in 60 countries, Green Key is one of the world's leading environmental certifications in the hospitality industry.

What does the Green Key certification mean?

The Green Key certification stands for the highest environmental standards and sustainable operations. To obtain the Green Key certificate, we must fulfill strict, internationally recognized criteria in the following areas:

- Environmental Management: Responsible use of water, energy, waste and cleaning products
- Sustainability Education: Training of staff, information for guests and sustainable procurement
- Continuous Improvement: Regular external audits and annual renewal of certification

What do we do specifically?

- Energy Efficiency: Use of energy-saving devices and LED lighting
- Water Conservation: Water-saving fixtures and conscious consumption
- Waste Management: Consistent waste separation and recycling
- Sustainable Procurement: Preference for local and environmentally friendly products
- Eco-friendly Cleaning: Transition to biodegradable cleaning agents
- Staff Training: Regular training on sustainability topics

How you as a guest can contribute:

- Reuse towels multiple times
- From two nights onwards, decline daily room cleaning
- Drink water from the tap
- Turn off lights and electrical devices when leaving your room
- Help with waste recycling
- Use public transport or bicycles for your excursions

Together we make the difference!

Your conscious decision to stay at our establishment actively contributes to environmental protection. Every small step counts – thank you for being part of this important movement!

Green Key

HOTEL ZÜRICH SEEFELD

Dear guests,

thank you for choosing a Green Key certified establishment. Help us to further reduce our environmental footprint by following these simple tips during your stay. These are very easy – but they have a great impact on the environment.

Use our cleaning on demand service

To reduce the use of detergent, packaging, water and energy, we clean your room on request only. If you would like a room cleaning, please place the corresponding magnets on your door sign before 11 am. During cleaning, we will change your used towels, if left on the floor.

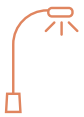

Help us separate waste

Waste is a resource that can be reused. Leave paper, newspapers and batteries in the room and place bottles and cardboard next to the bin.

Drink water from the tap

1 liter of drinking water from the tap sends 1000 to 2000 times less CO₂ into the atmosphere than 1 liter of bottled water. Our tap water meets high quality standards and can be consumed without hesitation.

Help us save energy

When leaving your room, please turn off the lights and switch off electronic devices (TV, chargers, laptop, etc.). Close windows during the heating season – keeping warmth where it belongs.

Use public transportation or bicycles

Bicycles, bus, train and metro are more environmentally friendly than cars. Information about public transportation and rental bikes can be found in the guest folder or at reception.

Experience green activities

Near our hotel there is beautiful nature, hiking, cycling or running routes or other green activities. Find your experiences online or ask at reception.

Together we make the difference! Thank you for your support.
